RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS

Sir:

This reply is in response to the "Notification of Missing Requirements under 35 U.S.C. 371" mailed on March 5, 2007, which indicates that the Oath or Declaration of the inventors for the subject patent application is not part of the filewrapper.

Applicants note that the Oath or Declaration of the inventors was submitted as part of the International Application under Rule 4.17(iv). Applicants therefore respectfully submit that the originally submitted declaration is in compliance with 37 CFR 1.497, and that a new declaration and the \$130.00 surcharge, is *not* required for this application.

However, Applicants enclose a Supplemental Declaration for the subject patent application, correcting the inventorship of one of the inventors, which has been fully executed in compliance with 37 C.F.R. 1.497(a), and (b).

In addition, Applicants have reviewed the specification and were unable to locate any sequences and therefore respectfully disagree with Notification of Missing Requirements and believe that a Sequence Listing is not required.

Application No.: 10/581,230
Group Art Unit: 1625

Applicants believe that no fees are required for the submission of these papers.
However, authorization is hereby granted to charge any fees, which may be required by this
paper, to Deposit Account No. 19-2570.

Respectfully submitted,

Soma G. Simon
Attorney for Applicants
